WELCOME FROM THE RECTOR

At Waitaki Boys we are enriched by a proud heritage, but forward-looking and progressive in our task of educating boys to meet the challenges of the today's world.

The environment and traditions of the school have exercised a remarkable effect upon generations of boys. We are blessed with a spectacular site, magnificent buildings and gardens, and generous resources. Our ethos is that boys will "be their best", in regards to their academic performance, culture, sports and most importantly their character. We are clear about our primary task. It is to identify and develop the potential of every boy.

With a roll of just under 400, we are small enough to know each boy well, and to recognise his individual character and needs, but large enough to offer an extensive academic and growing vocational curriculum, and an impressive co-curricular programme.

Our students are proud to be Waitakians. You will find here a tremendous school spirit. The big 'events' of the school year such as the Cultural Competition and the Senior Prizegiving are inspirational. The enthusiasm and vitality of the boys shines through.

As a school mission statement points out we are "inspiring young men of outstanding character".

The primary purpose of this handbook is outline the expectations, guidelines and procedures which will ensure your son has the support to enable him to fulfil his potential.

This is an exciting time for Waitaki Boys' and I am looking forward to sharing this journey with your sons.

Kind regards

Rector

- ii. Students may be advised to withdraw from specific standards by Heads of Department (HoDs).
- iii. The school is permitted by NZQA's rules to offer a maximum of two assessment opportunities for any standard in a year.
- iv. Students may be offered the opportunity to resubmit work (if appropriate) or receive one reassessment opportunity (if available).

b. Resubmission

- i. Teachers will use their professional judgement and only offer this to students where minor corrections will make a difference to the final grade.
- ii. The student should be able to identify and correct minor errors on his own
- iii. This is not a further assessment opportunity
- iv. Only one resubmission is allowed per assessment
- v. It is limited to specific aspects of the assessment that can be corrected quickly without teacher feedback or further teaching or learning
- vi. All grades are available in a resubmission opportunity (Achieved, Merit, Excellence)

c. Reassessment

- i. An opportunity for the student to sit another assessment for that standard provided that he is eligible for a further assessment opportunity
- ii. Reassessment availability is decided by each Subject Department based on practicability
 - a) Reassessment should only take place after an opportunity for further related teaching and learning has occurred
 - b) The reassessment should be a different, quality-assured assessment
 - c) Reassessment should be available to all students in the class who are eligible for a further assessment opportunity and who wish to improve their grade
 - d) If a reassessment opportunity is impractical (for example, the assessment is a Science experiment that cannot be repeated due to time restraints, or a Technology of Art project that is the accumulation of a year's work), then students must be made aware of this from the outset.
 - e) The timeframe for any reassessments will be decided by the Teacher/Department.
 - f) All grades are available in a reassessment opportunity (Achieved, Merit, Excellence).

7. Authenticity

- a. Authenticity is the assurance that evidence of achievement produced by a student is their own.
- b. Teachers will set conditions of assessment to assist with managing this.
- c. It is appropriate for students to learn from others at home and gather information from a range of sources.
- d. Students must be aware of using correct procedures for referencing sources that they use in assignments so that they do not plagiarise.

- e. Parents and caregivers should be aware that they cannot assist their son with the final product that will be turned in for assessment.
- f. Some departments require a signed authenticity statement to remind students of this factor.
- g. Your work must not be shared with any other student, regardless of the format in which it is presented (e.g. Google docs, OneNote)

8. Missed and Late Assignments

- i. Extensions are given at the discretion of the HoD.
- ii. Applications must be made well before the assignment due date, using the Application for Extension form (from the Principal's Nominee, Mrs Mansell).
- iii. Any request for an extension must be based on either
 - a) a medical necessity - accompanied by a medical certificate.
 - b) a genuine reason for lateness accompanied by a supporting note from a parent/caregiver.
- iv. If a student has missed the assessment due to school commitments (sport, cultural) then the extension process does not require a covering note from the parent.
- v. If a student has been granted an extension, then he should be allowed to present his work at a negotiated later date as a first attempt.

b. Late work:

- i. No teacher may accept a late submission for an assignment
- ii. **Work that is presented after the published due date and without any attempt by the student to arrange for an extension, will be considered as the first assessment opportunity missed - this means the initial grade is Not Achieved.**
- iii. Teachers will notify parents of late or missed submissions
- iv. If you leave an assignment at home on the due date, see the relevant HoD immediately for advice
- v. You must submit a hard copy of your assignments for assessment unless prior approval has been given by the relevant Teacher to allow an electronic copy to be submitted for assessment

 - ii. for an accepted reason – you may negotiate with the HoD for another assessment opportunity
 - h. If you miss an external examination on medical or compassionate grounds you can make application for a Derived Grade through the Principal’s Nominee (PN).
10. Absence from Internal Assessments and School Examinations
- a. For approved absence supported by documentary evidence (eg sickness, bereavement) – you are still eligible for a first assessment opportunity which may be the same or an alternative assessment
 - b. The HoD must be supplied the evidence in order to give approval for eligibility for assessment
 - c. Apply directly to the PN for consideration for credits if
 - i. you have legitimately missed all offered assessment opportunities and
 - ii. your teacher holds enough documented evidence of your level of achievement in that standard
 - d. If you miss an internal or school exam for a non-approved reason, you will be expected to make up the time with after-school detentions when you return to school.

12. Appeals

- a. Every aspect of the School's assessment and reporting system allows the right of student appeal
- b. Before your grades are entered in the markbook for a Standard, you must be given the opportunity to verify that the mark/grade is accurate and sign it off on the appropriate page of the assessment paper
- c. Grade verification must take place within five (5) school days of receiving a grade
- d. Once a grade has been signed off by you there is no further right of appeal.
- e. If you wish to appeal a grade that has not been signed off, you must appeal in the first instance to your teacher during discussion of the assessment result.
- f. If you remain dissatisfied, you may appeal in writing directly to the Principal's Nominee (PN)

 - ii. When you are relaxed.
 - d. How
 - i. To get material into our long-term memory we need to PROCESS it. You need to re-write your notes into lists, diagrams and summary notes.
 - ii. The more you process your material, the more it will enter your long-term memory.

- iii. You will not remember much if all you do is read. Studies have shown that after ten minutes or so of reading we take in very little extra.
- e. Testing
 - i. The final step in the study process is to test yourself (or get someone else to test you). This is the only way of telling what you know and what you are still struggling with (and must spend more time on).
 - ii. To test whether or not material has entered your LONG TERM MEMORY do not test yourself the moment after you have studied – do it a few hours later or the next day
- f. Why you need to organize a study timetable
 - i. When you know how much time is available for each subject, you are
 - a) more likely to use that time well. Your timetable gives you immediate goals – ie. revise a particular topic over the next hour.
 - b) less likely to run out of time.
 - ii. A good study timetable should still leave time for relaxation and leisure interests.
